PROJECT NAME : PERSONAL EXPENSE TRACKER APPLICATION

MENTOR NAME : MRS.S.SELVI

TEAM MEMBERS :

- PRIYANKA S (TEAM LEADER)
- RAISA A
- SNEHA R.S
- KALPANAKUMARI S

WEEK 4 (12 - 17 Sept 2022):

On September 12th, we gathered and listed the ideas of each member of our team. We then organised the brainstorming session and prioritised the top three ideas based on their feasibility and importance.

After collecting the ideas, we have separated the ideation process into four parts, and each member of the team has given their own ideas and thought of ideas to implement in this project. And we have attended the technology training as per the training session schedule.

For group ideation and brainstorming, we have created a template and entered the data related to the application, which we have uploaded to the Github account. The problem statement has been created with the motivation and problem statement of the project along with the overall workflow diagram.

Then we have to set the project-related queries and questions with the description process. And then, using the mural paper presentation website, we created the problem statement with a template to easily view the project concept and solutions.
