WEEK 3(5 - 10th Sept 2022):

Since September 5th, we have been doing our empathy map for our selected project. We attended every technology training as per the training sections. In these training sessions they have assigned some activities to do side by side, then they have posted a quiz and assigned to submit assignment 1 within a certain time.

We have done our problem statements as per the template on Github. While working with our ideas, it helps to capture user pains and gains, and we have prepared a list of problem statements.

In assignment 1, the mentor have assigned to create a resume page using HTML and we have created that website using HTML ,CSS and Javascript using that website, we can download our real resume .
